SUMMARY

Passionate MERN Stack Developer with a strong foundation in React, JavaScript, and backend technologies. Thrives on building dynamic, user-centric web applications with clean, efficient code. Eager to solve real-world problems, collaborate with innovative teams, and continuously grow as a developer.

EDUCATION

HACA Academy

Diploma in Software Engineering

Kerala, India

Jan. 2024 – Dec. 2025

Kannur University

Bachelor of Commerce in Cooperation

Kerala, India

Mar. 2017 – Jul. 2019

EXPERIENCE

Software Developer

Cignes Business Solutions Pvt Ltd

Jan. 2025 – Apr. 2026

Kerala, India

- Built and improved key features of a truck driver management system.
- Created an interactive exam module to test and track driver skills.
- Redesigned the admin dashboard with a modern look, making it easier and better to use.

Helper

Christian Dior, Mall of the Emirates

Mar. 2021 – Jul. 2023

Dubai, UAE

- Assisted sales associates by preparing and delivering products to customers quickly and efficiently.
- Handled product packaging and ensured luxury brand presentation standards were maintained.
- Supported store operations by organizing stock, coordinating with the sales team, and ensuring smooth customer service.

PROJECTS

Social Media Platform | MERN, JWT, Redux, Tailwind CSS

Aug. 2024 – Jan. 2025

- Built a full-stack social media web application with user authentication, real-time posts, likes, comments, follow/unfollow, and profile customization.
- Designed and documented RESTful APIs with Express and Node.js; persisted data in MongoDB.
- Implemented state management with Redux and crafted a responsive UI using Tailwind CSS.
- Deployed the application in a Dockerized environment for consistency across development and production.

Ecommerce | Python, JWT, React, Redux, MongoDB

Dec. 2024 – Feb. 2025

- Developed a full-stack ecommerce platform with product listing, shopping cart, and order management features.
- Implemented secure JWT-based authentication and role-based access control for users and administrators.
- Built responsive frontend interfaces using React and Redux for seamless product browsing and state management.
- Designed RESTful APIs and optimized MongoDB database operations for efficient product, user, and order handling.

ANALYTICAL SKILLS

Microsoft Excel | Advanced Level

- Created Pivot Tables and Pivot Charts to conduct comprehensive sales and stock analysis.
- Managed and analyzed large datasets utilizing advanced functions including VLOOKUP and INDEX-MATCH.
- Designed and implemented automated dashboards leveraging dynamic charts and complex formulas.
- Applied Conditional Formatting and Data Validation to ensure data accuracy and maintain strict data control.
- Generated detailed monthly reports and performed in-depth inventory analysis to support business decisions.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL

Frameworks / Libraries: React, NextJS, Express.js, Node.js, Redux, Bootstrap, Tailwind CSS

Databases: MongoDB, PostgreSQL

Developer Tools: Git, GitHub, Docker, REST APIs, JWT, VS Code

Spoken Languages: English, Hindi, Malayalam, Tamil
